

safe²tell™ Colorado

In this edition:

- Law Enforcement survey
- Report recipient contact updates
- Education and Outreach: Virtual presentation options

Law Enforcement Survey

With the passing of Senate Bill 23-070, Safe2Tell will host mandatory annual training for School Resource Officers starting in 2024. A couple of weeks ago, we sent out a survey to both school resource officers and Safe2Tell stakeholders to get valuable feedback and ideas to include in the training.

If you did not receive the survey and want to participate, please click on the correct link below (we have a survey specifically for SROs and one for all other Safe2Tell partners). We are asking kindly that the survey be filled no later than **November 10th**. Thank you for all your hard work and for being a Safe2Tell partner!

SRO Survey

Stakeholder Survey

You can submit an anonymous report to Safe2Tell by:

- Call: 1-877-542-7233
- Visit: Safe2Tell.org
- Text: S2TCO to 738477
- Download: Safe2Tell app

Report Recipient Contact Updates

Safe2Tell has streamlined the process for updating P3 report recipients. Please go to the “Connect With Us” page of our website and click “[Update who receives Safe2Tell reports.](#)” Law Enforcement updates MUST come from LE.

Education and Outreach: Virtual Presentation Options

Safe2Tell offers **free** presentations for students both virtually and in-person.

We know online learning can present challenges, however we appreciate your willingness to accommodate an online presentation as we are a Statewide program with a limited travel budget.

Benefits of virtual presentations:

- Classroom behavior is more manageable as opposed to large auditorium style presentations.
- Teachers are able to support students in staying focused and engaged.
- Safe2Tell will provide an optional assignment for students to complete during the presentation.
- Safe2Tell will provide a Jeopardy game as an extension activity covering all material from the presentation to be used as a refresher or check for understanding.

Interactive Component

- The presenter will ask several questions throughout the presentation. Teachers can type student answers in the chat or unmute and have students share their ideas. Students are often more willing to share their ideas in small group settings.
